37th edition of our annual Souvenir publication, "Lalithdara Issue No. 1472," is in your hands. Rotary Club of Patan has been continuously publishing its annual souvenir each year without a break ever since its establishment in the year 1985. There was no discontinuation of any issue even during the difficult times, like the major earthquake of Nepal in 2015, that rocked the country frequently for several months, and the Covid lock-downs during the year 2019-2021.

All Lalithdara annual souvenirs are packed with vital club information for that particular Rotary year. These include all major service projects, financial statements of various accounts, strategic planning, amendments in bye-laws and various club related information. Furthermore, the Souvenir also provides vital information of our partner clubs - Interact & Rotaract Clubs of Patan and Inner Wheel Club of Patan. Therefore in true sense they are our reference books that store the history and records of RC Patan for each year.

The year 2021/22 was led by Rtn. Mahendra B. Thapa, an experienced Rotarian/Trainer and a retired senior Govt. Officer. Most of his tenure was Covid-free hence physical meetings and fellowships were joyously held in very cordial atmosphere resulting in remarkable service project outcomes and memorable fellowships amongst the members. All these are compiled in the present issue. We are sure, under the energetic guidance from our current president 2022/23, Rtn. Shiva K. Pradhan, RC Patan would reach to a further height with many remarkable service projects to our community embracing the theme of RIP - "Imagine Rotary".

On behalf of Souvenir publication committee, I take this opportunity in thanking all the fellow Rotarians for providing articles and support for this issue and to the business community for supporting RC Patan through their advertisement contributions.

Enjoy reading!

Rtn. Shiva Pradhan
Rotary Club of Patan

I congratulate you on your installation to the office of club President at Rotary Club of Patan, Nepal.

The upcoming year promises to be one of the most joyful and rewarding years of your life.

As club and district leaders, you have such an important role to play. You can do so much to help create club experiences that are welcoming, inclusive and enjoyable for each and every member – and you can extend that same warmth and belonging to every participant who wishes to engage with our clubs.

If we serve our members, we serve our communities. And if we provide comfort and care for our members, they will truly come to understand the power of Rotary.

We all feel the impact that Rotary service and Rotary values have on us ... now it's our opportunity to share that feeling with others. This is a year to Imagine Rotary by envisioning a world that deserves our best, where we get up each day knowing we can make a difference. We don't imagine yesterday, we imagine tomorrow.

We imagine a world without polio, with clean water for everyone. We imagine a world free of disease and where every child learns to read. We imagine kindness, hope, love, and peace.

It is honor to work beside you as we guide our fellow Rotary members to another successful year. I am relying on you as we commit ourselves to *Imagine Rotary*.

Warmest regards,

Jennifer Jones

District Governor 2022-2023

Rtn. Shiva Kumar Pradhan
President 2022-2023
Rotary Club of Patan

Dear President and Rotarian Friends

My best wishes and hearty congratulations to President, his team members and all friends for upcoming Rotary Year 2022-2023.

We have just now completed Rotary Year 2021-2022. Rotary International, our District 3292 and Rotary Clubs have done our best to the communities by providing humanitarian services, working in partnership with the Government of Nepal and Local Authorities to serve the communities at times of global crisis, which is indeed the true spirit of Rotary.

Friends more than fifty years ago, one popular song was recorded that included this beautiful line:

You may say I'm a dreamer But I'm not the only one.

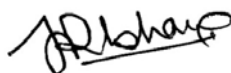

Friends, we all have dreams, but acting on them is a choice. And it becomes our responsibility to make these dreams a reality. Let us imagine a world that deserves our best, where we get up each day knowing that we can make a difference.

With above vision, Rotary International President Jennifer Jones has given the theme "Imagine Rotary" for the year 2022-2023. Our district has our Theme "Together for a better world". True to its spirit, I am confident your club under the able leadership of your Club President will support the society by serving the community.

Once again my best wishes and congratulations to your club and wishing you the very best in the year 2022-2023 and years to come. I look forward to your club's support and working closely with your club in the Rotary Year 2022- 2023 to serve the Communities.

TOGETHER, WE IMAGINE ROTARY

President's Message

Dear Fellow Rotarians,

It is a great honour to join you as the 37th President of the most senior club of Rotary in Lalitpur, Nepal, for the Rotary Year 2022-2023. I am indeed filled with enthusiasm and joy, and truly grateful to the entire Rotary Club of Patan family for giving me this opportunity to 'Serve'.

My priority is to maximise the use of my time to bring the club to greater heights. Implementing the theme 'Imagine Rotary' of the first female Rotary International President Jennifer Jones along with District 3292 (Nepal and Bhutan) Governor Jitendra B. Rajbhandary's theme of 'Together for a Better World', I will endeavour to do my best to implement the strategic plans and goals of the Rotary Club of Patan.

As we know, teamwork is the key to success, I request all club Chairpersons/Directors and the entire Rotary Club of Patan family for suggestions and advice to make our club more efficient and effective in all its actions and execution of its activities.

I also take this opportunity to thank the Lalitdhara Souvenir Publication Committee Team, authors of the articles, and sponsors with advertisements for the 37th Souvenir publication of the Rotary Club of Patan.

Finally, I would like to wish everyone a happy and healthy Rotary Year 2022-2023. Let us 'Serve' working together as a family.

With best wishes.

Yours, in Rotary,

Shiva Kumar Pradhan

ANNUAL REPORT ROTARY YEAR 2021-2022

Rtn. Khadak S Bisht
Club Joint Secretary
2021-2022

The Covid-19 pandemic continued to affect us most of the times during this Rotary Year. Only from March 2022 onward, there was some relief and we could start our physical meetings and fellowships events. Despite all these prevailing pandemic constraints, RC Patan managed to accomplish most of its planned activities including an international humanitarian assistance to Sri Lankan people through our partner club RC Colombo West. Our first humanitarian project was to provide some financial support to the "Flood Affected Families" in Melamchi, Sindhupalchowk region based on their need assessment and later construction of 21 houses for the flood victims in Thulopakhara, Magargaun, also in Sindhupalchowk. Both programs were executed jointly in collaboration with NRCL.

Apart from that, all our regular activities were smoothly carried out thanks to overwhelming participation and support from our club members. The club leaders took initiative of engaging all the members in our various on-going flagship programs. All the members were actively involved in club activities through various committees. Our activities during the year 2021/22 are summarized briefly below:

1. Club Service

RC Patan is a vibrant and active club of our District, always striding for helping the community in making changes in their lives. Our Club Service activities focus on making our club strong and efficient through various participatory activities so as to ensuring the effective functioning of

the Club. The RCP has a separate Club Service Fund that provides necessary funds for the betterment of the club and various other activities on the needs basis.

Virtual Installation ceremony in the presence of Assistant Governor, Rtn. Preeti Shah

2. Club Meetings

RC Patan is led by a 15-member "Board of Directors". All the activities are carried out through six thematic committees and subcommittees involving majority of our members. During this Rotary Year 2021/22, RCP managed to carry out a total of 50 regular weekly meetings, 12 Board meetings, a joint Board Meeting and five Club Assemblies as per predefined schedule. Apart from that, 2 joint meetings with Rotaract Club of Patan and a series of meetings with NRCL were held in different day & dates.

Special efforts were made to ensure an effective and well functioning of the club administration e.g. preparing and sending of meeting agenda in advance, inviting spouses & guests during the talk programs, sending reminders of the meetings, etc. – all through paperless social media using email, viber and SMS. This year our meeting venue has been changed from Summit Hotel to Alice Conference Bakhundole due to some technical constraints.

3. Celebration of Rotary's 117th Anniversary Day

Rotary Club of Patan celebrated 'Rotary's 117th Anniversary Day (23 February) on 21 February 2022, which is also known as 'World Peace and Understanding Day'. The celebration was divided in to two parts, first with Rotary Question/Answers moderated by Rtn. Khadak S. Bisht and the second on experience sharing and success stories of our past presidents, moderated by Rtn. Bijaya Mallapaty. On this occasion, Rtn. Khadak S. Bisht presented some vital statistics on Rotary movement. Rtn. Bijaya Mallapaty highlighted Rotary as doing good in the world with a record of achievements - a global movement of peace, tolerance, and "service above self." He also flagged several challenges Rotary faces such as - the need of exemplary leadership of volunteer professionals, centralization vs. decentralization in Rotary, and other structural issues.

4. Celebration of 'Brain Awareness Week 14-20 March

An interactive talk programme was facilitated virtually by Rtn. Joyce Shaffer from RC Bellevue, Seattle, US, who also happened to have visited Nepal in 1969. She gave her presentation through power point audio-visual slides. She worked jointly with Dr. Liliana Alberto of Argentina to prepare the presentation and in raising awareness during the 'Brain Awareness Week – 14 to 20 March 2022' and the designation of 'Brain Day International – 20 March 2022' with events in four continents of the world. Rtn. Shaffer explained the proven benefits of hearing music to the human brain from pre-natal stage to adulthood simply by listening to background music to enhance learning, and in elders to improve cognitive decline. Even

better, is 'making music', which includes singing alone or with others, playing any musical instruments and/or dancing on music. While music and dance are low cost, easy, and fun activity in all cultures, it promotes social, emotional, behavioural, neurochemical, immunochemical, and neurocognitive health for all. Taken together, music and dance for eight years before the age of 18 may reduce the risk of Dementia by as much as 60%.

5. Celebration of the RCP's 1800th regular weekly meeting

Celebration of the RCP's 1800th regular weekly meeting was held on Monday 11th April 2022.

6. Celebration of 'World Heart Day-29 September

To celebrate the World Heart Day, a talk programme was organized on 27th October 2021 with the main speaker Cardiologist Rtn. Dr. Prakash R. Regmi on the theme 'Use heart to connect with hearts – an awareness raising presentation. Members and family greatly benefitted from this program by knowing ongoing medical advancements to protect and treat our heart related ailments.

32. Humanitarian Assistance-Dry Rations project Sri Lanka

As we all know, our friendly neighboring country Sri Lanka is going through one of her worst post-independence economic crises. Common citizens are undergoing immense hardship, with shortages and rising costs of essentials including food, medicine, and fuel. As is usual, the Rotary fraternity has risen to such occasions anywhere and extended support. We had received an urgent appeal from RC Colombo through DGN Jerome Rajendram of RC Colombo West for assistance. As an institution which focuses primarily in serving the community our club immediately responded to support this project and join our hands with many other clubs in Sri Lanka who were taken initiatives in procuring food and medicine for the vulnerable segment of the community. RC Patan instantly raised US\$ 2387 from its members and transferred this amount to RC Colombo West for this noble cause.

As any other supply has winding import protocols, the ideal are that we reach out to our friends in Sri Lanka by way of financial support via Banking no matter how small it may be. The RC Colombo West has engaged in food dry rations packages within the Colombo District with funding already available to the identified localities.

To work on the project, RC Colombo West has opened a separate Sri Lanka Rupee account to ensure transparency and a separate page dedicated to their club web (www.rotarycolombowest.org) displaying the receipts and the manner in which the proceeds have been used.

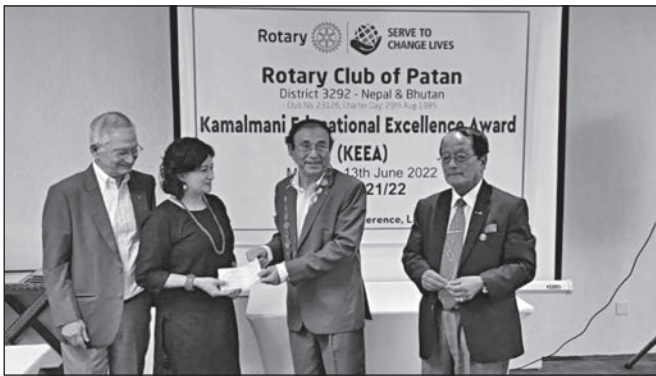

Part of the proceeds received from the remittance sent by Rotary Club of Patan (RCP)- RID 3292 Nepal-Bhutan, was used in the 3rd phase of their dry Rations Distribution project, held at the Mannar District in collaboration with the Rotary Club of Mannar. This was concluded on the 7th of June and a sum of SL Rs. 473,000 was used in distributing 100 packs of foods. Images from the distribution exercise

are attached herewith and the balance funds would be used in a similar project in the Trincomalee District. We may very clearly notice that RCP name appears in the banner displayed at the distribution sites and specifically announced as well at the time of distribution.

33. Contribution to The Rotary Foundation

The RCP has reached 44 members with 9 Major Donors, 23 MPHFs, PHS/RFSM 2/7 and is 100% PHF Club. The RCP has also been contributing to The Rotary Foundation Fund. It has also been actively participating in the Polio Plus program of the district. As part of the International service the RCP made the contribution of US\$ 3749.174.

However due to other constraints we were unable to achieve the annual target of US\$ 4500 for Annual Fund & annual target of US \$ 1500 for Polio Plus.

Encouraged RFSM/EREY/PHF/MPHF/MD/PolioPlus

34. Establishing the Sister Club Relationship

Request was received from Rotary Club of Colombo West, Sri Lanka, to become a sister club of the RCP: As past sister club relationships of the RCP have not been sustained, it was agreed that a good plan of collaboration will be needed. Therefore, while agreeing with the request in principle, the 11th Board meeting of Rotary year 2021-2022, held on 27th May 2022, nominated Rtn. Mahendra B. Thapa to be the focal point from the RCP to prepare the necessary plans on this for review by the Board for twining as "Sister Club" sharing the following objectives.

- To promote and enhance fellowship and friendship between Rotarians from both clubs,
- To promote & participate in joint community projects,
- To promote & encourage reciprocal visits with each other and
- To exchange club news through club's bulletin & other means.

35. Youth Service

Youth service recognizes the importance of empowering youth and young professionals through leadership development programmes, service projects/joint projects and exchange programmes. The RCP sponsors a very active Rotaract Club and two Interact Clubs by providing the financial & technical support. The RCP and Rotaract Club of Patan held joint meetings, blood donations and various other activities such as cycle rally. It also sponsored leadership development programmes for both Rotaract Club and the Interact Club representatives. Nevertheless RCP has supported Rotaractor's (RAC) and Interactor's participation in most of the District events and other skill training.

Concluding Remarks:

This Rotary Year 2021/22 has been a busy but a challenging year. Nonetheless, by overcoming all the difficulties RC Patan managed to achieve all its stipulated goals with several worthwhile project activities and memorable fellowship events. This report provides just a brief summary of activities carried out during RY 2021/22. Details of all our major flagship projects are included in this Souvenir as separate articles.

Finally, we extend our sincere appreciation to all past leaders of the club, Board Members, Committee Chairs and other members of the club for their cooperation and support to us for the benefits of the society that made our tenure worthwhile and memorable. Thanks a lot to our Rotarian friends for your overwhelming support & let us work together for a successful Rotary Year 2022-2023.

Rotary Club of Patan (RCP) Prajapati Education Endowment Fund (PEEF) Annual Report as of 30 June 2022

- Rtn. Bijaya Mallapaty
Past President & PEEF Finance Manager

Introduction

The Rotary Club of Patan (RCP) has been implementing the Prajapati Education Endowment Fund (PEEF) programme since 1991, providing educational scholarship to needy children in public schools. It has demonstrated that the value of a small monetary contribution is exponentially larger in terms of improvements of a child's overall well-being and community development through continued education.

During the Rotary Year 2021/22, 412 students received scholarship support of which 63% percent were girls. As of 30 June 2022, the PEEF Trust Fund has reached Nepalese Rupees (NRs.) 14.82 million with a Programme Fund balance of 3.04 million bringing the total fund balance to NRs. 17.9 million. The RCP is maintaining a Programme Fund balance to sustain the scholarship programme through uncertain times such as the COVID-19 pandemic when expected contributions may reduce, or reductions in income from the Trust Fund due to lower interest rates.

The PEEF 'Management and Operational Policies' (PEEF MOPs) govern the PEEF. The PEEF MOPs separate the Trust Fund from the Programme Fund and outline the policies and procedures of the funds' management, criteria for support, investments and financial management mechanisms, and administrative responsibilities.

A key to the continued success of this flagship programme of the RCP is that the entire RCP family takes ownership of it. In addition to a dedicated committee managing this programme, the RCP family volunteers its valuable time and resources during the annual student selection and funds distribution in the assisted public schools throughout the Lalitpur District. Several of these schools are only accessible with 4-wheel drive vehicles during the rainy season, despite their proximity to Kathmandu.

This annual report captures key actions taken during the reporting period 1 July 2021 to 30 June 2022, and provides a summary, together with an attachment, showing all PEEF contributors and contributions.

Key Actions

- Despite the COVID-19 pandemic with the periodic closure of all schools by the government of Nepal, the RCP was able to complete its selection and distribution campaign to all schools for this year. With considerable efforts from the RCP family, this year's campaign ensured that students do not lose getting their annual scholarships.

Similar to the last year, the COVID-19 pandemic and lock-down/restrictions have impacted the students and schools. The public schools continue to suffer much more during this pandemic as they do not have the capacity and infrastructure to conduct virtual classes like the private schools.

technical support of the World Health Organization in Nepal. This global grant project with a budget of US \$81,000, sponsored by Rotary Clubs and Districts in Italy, the Rotary Foundation, and implemented by Splash (Prabhav) Nepal, was completed in December 2020.

The Rotary Club of Patan prepared a handbook that establishes a permanent record of the baseline status and the improvements done in the supported schools; provide a reference document to the supported schools and act as a reference handbook for similar projects in the future. The handbook has been widely shared and can be viewed following this link:

https://issuu.com/rotaryclubpatan/docs/rotary_gg1860104_wash_handbook_final

While the schools own the project, the school management committees with the participation of student bodies ensure its long-term sustainability. The RCP also continues to monitor it during its scholarship support distribution/selection campaign. Together with the RCP's implementing partner, a review is planned this year to assess the impact of the school closures during the pandemic on the status of the WASH facilities in these schools.

Financial Report of 2021-2022:

- (i) During the Rotary Year 2021-2022, 412 public school students from lower-income families in 26 public schools of Lalitpur District received scholarship support totalling NRs. 1,540,000 (NRs. 1,220,000 to 348 students in grades 7 to 10 and NRs. 320,000 to 64 students in grades 11 to 12). The scholarship amount was NRs. 3,000 in grades 7 to 10 plus NRs. 1,000 for those meritorious students getting a GPA of 2.81 or more (70% or B+), and NRs. 5,000 to students in grades 11 and 12. Considering the continuing inflation, the RCP has also decided to increase the scholarship amounts by NRs. 500 to each student from the next Rotary Year.
- (ii) This year, a record 176 students (51% of students in grades 7 to 10) got merit. We believe that this is because of examinations online, which resulted in higher marks/grades compared to past years.
- (iii) Ratio of male/female students this year was 259 girls (63%) and 153 boys (37%) continuing with the trend of more girls going to the public schools with affording parents sending boys to private schools.
- (iv) During this Rotary Year, total contributions of NRs. 2,315,180 (NRs. 1,520,420 in the Trust Fund

and NRs. 794,760 in the Programme Fund) was received. Major contributors (contributing over NRs. 100,000) this year were Dr. Subarna Malla Singh/Pratibha Sampeur, Sarswati Govinda Foundation, Mr. Arun Chaudhary, Mr. & Dr. Ajaya & Anu Mallapaty, and former Rotarian of the RCP Mr. Chandra S. Gyawali.

- (v) Ms. Jabina Rajbhandary (daughter of Rtn. Siba B. Rajbhandary) handed over a cheque of US \$5,000 from a long-time sponsor of PEEF, Dr. Prabhu Prabhakar from the USA, which has been sent for collection and will be recorded in the next Rotary Year.

Rotary Club of Patan (RCP) Khagendra Raj and Piyush Priya Ability Development Endowment Fund (KPAD Fund)

Annual Report as of 30 June 2022

Rtn. Bijaya Mallapaty
PP &
KPAD Finance Manager

The Rotary Club of Patan (RCP) has a long history of support to people with disability, including the successful completion of the 3H grant project (2008-2012) to raise awareness in this regard. In September 2018, with an initial pledge of NRs. 10 Lakhs by Rtn. Rabendra Raj Pandey, the RCP established, in his parents' name, 'Khagendra Raj and Piyush Priya Ability Development Endowment Fund' (KPAD).

Highlights of the KPAD Programme:

- RCP KPAD Fund was established with a long-term vision to enable people with disabilities.
- The RCP family committed to take ownership of this flagship programme through advocacy for fund-raising and voluntary contributions by a maximum number of the RCP family.
- Within three months of its establishment, the RCP raised over NRs. 25 Lakh (2.5 million) and set its aim to raise NRs. 1 crore (10 million) within 3 years. By 30 June 2022, the end of the Rotary Year 2021-2022, KPAD was able to raise NRs. 8,597,248 and generate a programme fund balance of NRs. 872,156.
- All interest from the KPAD Trust Fund is deposited into a Programme Fund, which will be used to support programmes for people with disabilities. All the professional time and resources provided by the RCP family to manage this programme are voluntary.
- First support from the KPAD funds was made in December 2019 to the Karnali secondary school's 20 visually impaired students with supplies worth NRs. 32,500.
- Second project from the KPAD funds was 'Empowering People with Disabilities in Nepal by Teaching Organic Vegetable and Poultry Farming Skills' started in April 2021.
- 2021-2022 Activities:

Representatives of the RCP KPAD committee have been working on the project called 'Empowering People with

Disabilities in Nepal by Teaching Organic Vegetable and Poultry Farming Skills' since early 2021. This is a five-year project for which a 'Project Cooperation Agreement' was signed in April 2021 between three project partners - The Rose International Fund for Children (TRIFC), USA Non-profit (NGO); Ability Development Society of Nepal (ADSoN), Nepal NGO; and the Rotary Club of Patan. A Memorandum of Understanding (MOU) was signed with the implementing partner 'Shijan Organic Pvt. Ltd., Nepal' in July 2021.

Learning how to grow organic vegetables and raise organic poultry are skills which can help lift people with disabilities (PwD's) in Nepal by instilling the values of life-long learning, cooperation, cross-disability interaction, helping others and dignity, all the while learning and earning. This project will hire and train PwD's from all different disability areas who will in turn teach other PwD's through a 3-month vocational training course designed to be disability accessible and inclusive. Programme graduates will be prepared and qualified to start their own farming enterprise with the option of joining a cooperative to help market and sell their products. Some graduates may choose to start their own garden area in their own home to grow vegetables and poultry for their family to consume. Follow up help and support will be provided as needed. Whatever the programme graduates choose to do with their farming knowledge, they will have learned valuable skills that will empower, improve self-esteem, and be greatly valued by their families.

The project has established a disability-friendly, inclusive organic farm on a parcel of leased farmland in the Kathmandu valley to provide for the economic sustainability and improved nutritional health of people with disabilities. The project partners are undertaking their activities through its implementing partner after receiving extensive advice and counsel from organic farming

experts, marketing experts and organizations supporting people with disabilities. At this stage, a second batch of training is ongoing.

The revised KPAD committee to manage KPAD programme:

Ex-officio Coordinator: President Elect, Rtn. Mahendra S. Rawal

Other Ex-officio members: President Rtn. Shiva K. Pradhan and Treasurer Rtn. Bharat N. Joshi

KPAD Financial Status as at 30 June 2022:

Trust Fund:	NRs. 8,597,247.95 (On 30 June 2021, it was NRs. 3,613,000)
Programme Fund Balance:	NRs. 872,156.48
Total:	<u>NRs. 9,469,404.43</u>

During this Rotary Year, a major effort to fund raise was very successful to bring the total KPAD funds close to one crore rupees (10 million). This effort was helped by the pledge to match the contributions on a one-to-one basis by Rtn. Rabendra R. Pandey and another one-to-one match by TRIFC thereby every Rupee would become four. ADSoN also organised a charity golf tournament and, from its proceeds, contributed NRs. 500,000 to KPAD, which was also matched accordingly. With additional contributions from the RCP members including substantial contributions from the relatives of Rtn. Kedar B. Shrestha, a total of NRs. 4,984,248 was raised this year alone to bring the Trust fund to the amount mentioned above.

Kamalmani Educational Excellence Award (KEEA) History

- PP Rtn. Gabriele Mallapaty

Background:

The Kamalmani Educational Excellence Award (KEEA) started in 2012 with a donation of NRs. 100,000 by late Rtn. Kamalmani Dixit to establish a "Fund" to honour the best-performing student among those receiving scholarships from the RCP's Prajapati Education Endowment Fund (PEEF). **In December 2013, the best all-round student among three students received its first award.**

In February 2014, the RCP increased the award amount from NRs. 5,000 to NRs. 10,000 after late Rtn. Kamalmani Dixit contributed additional NRs. 25,000 to the RCP's Club Service Fund. To expand this award, Rtn. Ganesh R. Shrestha and PDG Rtn. Tirtha M. Sakya provided additional annual contributions of NRs. 5,000 and NRs. 3,000 respectively for the 2nd and 3rd best students. **The second award ceremony took place in December 2014, which awarded three students.**

In October 2015, the RCP further expanded the awards to reward 10 students. In June 2016, late Rtn. Kamalmani Dixit contributed additional NRs. 30,000 making a total contribution of NRs. 155,000 to the RCP's Club Service Fund, which covered the first prize of NRs. 12,000 annually. The additional 9 prizes would be given through annual contributions from RCP members - three second prizes of NRs. 5,000 each were contributed by Rtns. Ganesh R. Shrestha, Bijaya Mallapaty, and Matsyendra L. and Chandralekha Kayastha; and six third prizes of NRs. 3,000 each were contributed by Rtns. PDG Tirtha M. Sakya, Lalita Thapa, Sharada Prasai, Gautam Shakya (replaced by Jamuna K. Tamrakar from 2017), Siba B. Rajbhandary and Nirmal K. Pradhanang. **The third award ceremony in April 2016 awarded 10 students for the first time.**

In March 2017, Ms. Munu Rajkarnikar, spouse of late Rtn. Narayan G. Halwai, contributed NRs. 100,000 in the name of her husband for the KEEA to the RCP's Club Service Fund, and the RCP allocated NRs. 8,000 every year for the KEEA in the name of late Rtn. Narayan G. Halwai. In November

2017, Messrs. Kunda Dixit and Kanak Dixit contributed NRs. 10,71,117.12 in the name of late Rtn. Kamalmani Dixit to the RCP's Club Service Fund for the KEEA.

These additional contributions allowed the club to increase the awards starting with the **6th award ceremony in September 2018 to its current level.**

Award Modalities:

Annually, ten PEEF scholarship students who scored highest in the final examination of grade IX from 10 different PEEF schools are pre-selected. The RCP Interview and Selection Committee comprises of the Coordinator of the PEEF (RCP President Elect), the RCP Secretary and the RCP Chairperson of Service Projects.

Kathmandu's Waste Management: Challenges and its opportunities

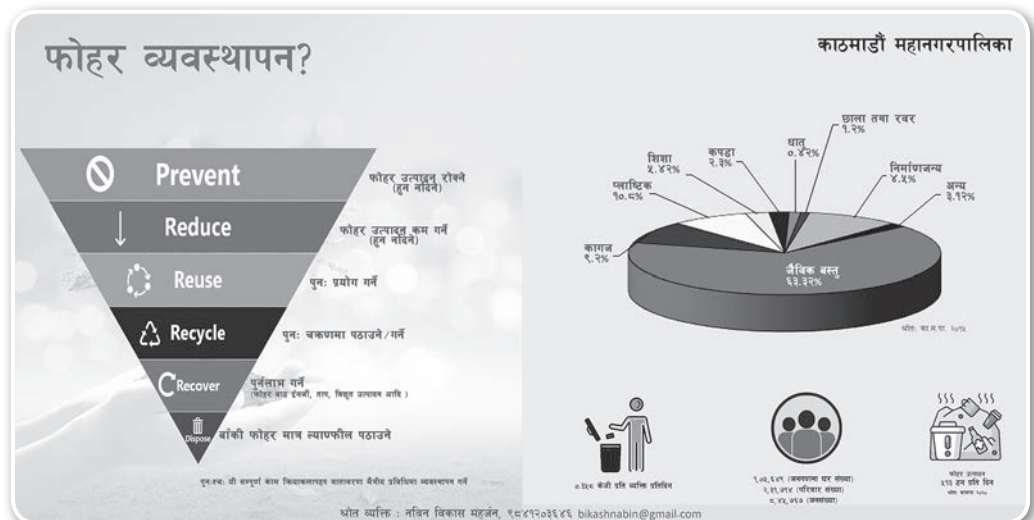

Rtn. Nabin Bikash Maharjan
Co-founder/CEO
Blue Waste to Value Technical Advisor
Solid Waste Management Association of Nepal

Kathmandu Valley has 18 Local authorities, generating more than 1200+ tons of garbage everyday and it has become a headache for the newly elected mayor and its council members who are responsible for the management. It's been a long time since 2005 AD (>17 years) the Sisdol landfill site was continuously receiving the garbage from Kathmandu Valley. The landfill was designed to manage temporarily to receive garbage for only 2 years with the goal to finish the construction of a long term engineered sanitary landfill at Banchare danda. But the Banchare Danda landfill construction was not moved on as expected and so Sisdole has to receive the garbage continuously from the valley.

Waste management is crucial and it comes as an issue every year, and elected bodies discuss for the opening of the ways to dump the generating garbage at the sisdole, promising several demands from the locals and then again they fail to fulfill the demands which is partly fulfill the commitments. So then again the issue gets back to the same point. This trend of halting and negotiating has continued and never solved the main issues of their demands.

Responsible environment friendly solid waste management hierarchy directs that the prevention of waste or refuse is the first step, and then to reduce and reuse options. The leaders did not get the subject into the priority neither the

civilians nor commercial establishments. Due to the lack of strict supervising and monitoring mechanisms in the system, people used to mix their garbage and even the collectors mixed them into the same vehicle. Solid Waste

Management Act 2068 BS and Regulations 2071 BS clearly stated that the local authorities have full responsibility of their city's solid waste management, they can have either take the support of the private consultation/dedicate them to manage the garbage in proper environment friendly adaptations, however, this has never become a rule to follow at the practical ground. Kathmandu Metropolitan City (KMC) has its separate Environment Management Department (EMD) which is taking responsibility for the street sweeping, collection, transfer to the landfill and even ding management at Sisdol Landfill site, is crucially doing its job with the limitation of the resources and capabilities.

In 2010, Solid Waste Management Technical Support Center (SWMTSC), under the Ministry of Urban Development (MoUD), which is currently not in action, called interested applications from the international parties into 3 different

packages of the Kathmandu Valley as Integrated Solid waste Management (ISWM) project. Package I included Kathmandu Metropolitan City with surrounding VDC (currently all VDCs are converted into Municipality), Package II included Lalitpur Metropolitan City, Kirtipur and Surrounding VDCs; whereas Package III included Madhyapur Thimi Municipality, Bhaktapur Municipality with surrounding VDCs. The ISWM project call is designed for the long term (20 Years +2 years construction period), and later It was carried out through the office of Investment board of Nepal (IBN). After the evaluation, Two of the applied consortium companies; namely NEPWASTE, was awarded for the package and Clean Valley Company for Package II and III. Both the Companies developed the DPR and submitted it to IBN as per the TOR. With the close review on the document, IBN came over the decision for the preparation of "Project Development Agreement (PDA) and exercised it to bring the selected parties to the point to take over the project. Since the local elected bodies back after the election, as of the new constitution of Nepal, the decentralization of the decision making, has let the local authorities need to decide for the contract agreement. It took another 5 years to review and detail the actions that had to be convinced by the past elected bodies and were not signed yet. The company has updated the bank showing the interest and paying the premium. However the responsible authority has delayed moving ahead with the decision.

What to do with our generated waste?

Waste generally comes in home, offices through purchasing capacity. The more purchasing power, the more waste gets generated. So, we all must have to be conscious, before we purchase anything from the market. I recommend to bring only what you can use for the long term, do not buy altar items, or any form of unnecessary packaging. You can leave them off from the goods/items that you purchase. Hence, you can heavily reduce the waste at source, even if it comes to some amount you have to segregate at source and put them separately. Individual homes can have at least two bins-dry (non biodegradables) and Wet (biodegradables); thereby one can make compost out of wet waste. If there is some quality leftover food, then can send it for the animal feeding. Dry items should be stored in sacks/bags either to wait for the collection system or to reach up to the optimum volume so informal waste buyers can come and collect with some monetary value. This will definitely give a justice for the environment, health and personal behaviors of the family and community.

How can we make compost?

Depending on the volume of the wet waste generation, we can choose the system of composting. Normally 4-6 family member households can keep a 100 liter perforated compost bin. It would be very handy, can go on the balcony, rooftop, or even inside the kitchen, especially fit for the urban dwellers. Small 1-2 liter bin at the kitchen can be used to collect the wet garbage;

which is to mix with brown items like sawdust, rice husk, leaf shredded (anyone available), which can absorb water in the wet garbage. We can add activators (source of microorganisms which helps to decompose faster) like Effective Microorganisms (EM1) and also mix the materials thoroughly before we put it into the compost bin. This will ease compost into a good quality. We can keep adding from the top and after the bin gets 2/3rd of the volume, it starts showing the black color at the pores of the bin- which can be extracted out using a L-shaped metal rod which comes along the bin.

Nowadays, we also have an automatic composting machine (runs with electricity) that takes biodegradables inside the machine and produces compost out. The easy application of the activator inside the machine with the thermophilic bacteria growing environment make the compost within 24 hours.

What will we do then for the plastics and other non-biodegradables?

Respecting the life cycle of the materials, one can segregate those items in source and put them in separate bins/sacks, can press it to reduce the volume and can store for more time period, so can accumulate enough volume for the collection from the recyclers. We can give away them by selling or as a gift for their contribution to save the environment. Plastics composed of 11-12% of the waste can be reseggregated and recycled by the

factories lying at the industrial estate. Papers, Rubbers, glasses and Metals are easily taken care of by informal scrap buyers in town.

What about the other non recyclables items that come in the garbage? How can it be managed?

Some advanced wastes like multilayer plastics (MLPs), absorbent hygiene products (AHPs), tetrapaks, different types of composite plastics are then to bring into use by building bricks, roads, chip boards, and pyrolysis or then can have sent to the Plasma arc technology to recovery the electricity and also 4% carbon can be reutilised in making bricks for paving.

Health care waste management systems are to be taken care of with the autoclaving infectious wastes, which then can be taken into the general wastes. Some hazardous waste including heavy metals are to be stored properly and managed with extensive care through the service providers.

ONE HEALTH: Animal Welfare for Public Health Project

Rtn. Khadak S. Bisht

The Rotary Club of Patan continued a free anti-rabies vaccination campaign in Lalitpur villages as part of its One Health: Animal Welfare for Public Health project, sponsored by Dr. Mukti Narayan Praveena Foundation Nepal (DMNPF) and implemented by Veterinary Practitioners' Association Nepal (VPAN) / Nepal Veterinary Association (NVA).

Rabies is caused by lyssa virus that is responsible for death of 60,000 people annually across the world. In Nepal, 100-200 people die every year due to Rabies that includes 60% children. In the year 2030 one health approach is mandatory to end dog mediated rabies.

As part of this year's efforts the Veterinary Practitioners' Association Nepal (VPAN) / Nepal Veterinary Association (NVA) team successfully vaccinated a total of 1200 dogs in 5 villages of Lalitpur district from 19 to 24 April, 2022.

The areas included Satdobato, ward no. 15, Harisiddhi, wards no. 28 & 29, Thaiba, ward no. 14, Kitini, wards no. 1 & 4.

The villages for this year's rabies vaccination campaign were identified by the Rotary Club of Patan to include areas where the RCP also distributes annual scholarships to economically deprived students in selected public schools.

Concerned government office were informed about the intended campaign before the actual launch of the campaign. of program.

Vaccination were administered directly on the street at the dog's natural's residences, further reducing likelihood of stress. Pet dogs and cats were also vaccinated. Each vaccinated dog was marked with paints and was photographed.

The vaccination campaign also included awareness raising at RCP's scholarship recipient schools. At the Shree Harisiddhi Secondary School, Harisiddhi, Lalitpur Metropolitan City-28 and Fulchoki Higher Secondary School, Thaiba, Godawari Municipality-14, a total of 105 students from grades 8, 9 and 10 were made aware about rabies disease, causes and preventive measures that can be applied. The campaign was made attractive through Q & A session with the students where the best answers were awarded with chocolates.

Fulchoki Higher Secondary School

Shree Harisiddhi Secondary School

VPAN volunteers distribute around 1500 educational leaflets to students and community members, especially children. These leaflets were designed by NVA and VPAN. The leaflets offered detailed pictures and guidelines on origin of rabies, its definition, clinical signs and symptoms, rabies awareness, and safety measures in case of dog bites. Community members were very curious and eager to accept and read the leaflets as they were prepared in Nepali language.

Empowering Girls' Agency for Future Leadership

Rtn. Ganga Ram Gautam, PhD
Asst. Professor, Tribhuvan University

Context

The Constitution of Nepal – 2015 provisions the mandatory representation of women in all tiers of government with a view to make our political and governance system inclusive. Similarly, employment agencies have adopted inclusive policies to include women in formal recruitment. Despite these policy provisions, the reality is different. There are a very few women in the leadership positions across the board. Out of 24 members in the current Council of Ministers, there are only 4 women (3 Ministers and 1 State Ministers). Number of women in the bureaucracy including the Secretary is very low. None of the major political parties in the country are led by women. Due to the mandatory provision in the constitution, there are women representatives in the local governments but a high majority of them are in the role of Deputy Mayors. This indicates a huge gap between the policy and practice and such a gap exist not because of the lack of leadership qualities among women but due to the patriarchal mind-set among those who are in key leadership roles. Thus, it is very important to empower the agency of women to take the leadership role and inculcate leadership qualities among the women in the country.

Key Barriers in Women Agency

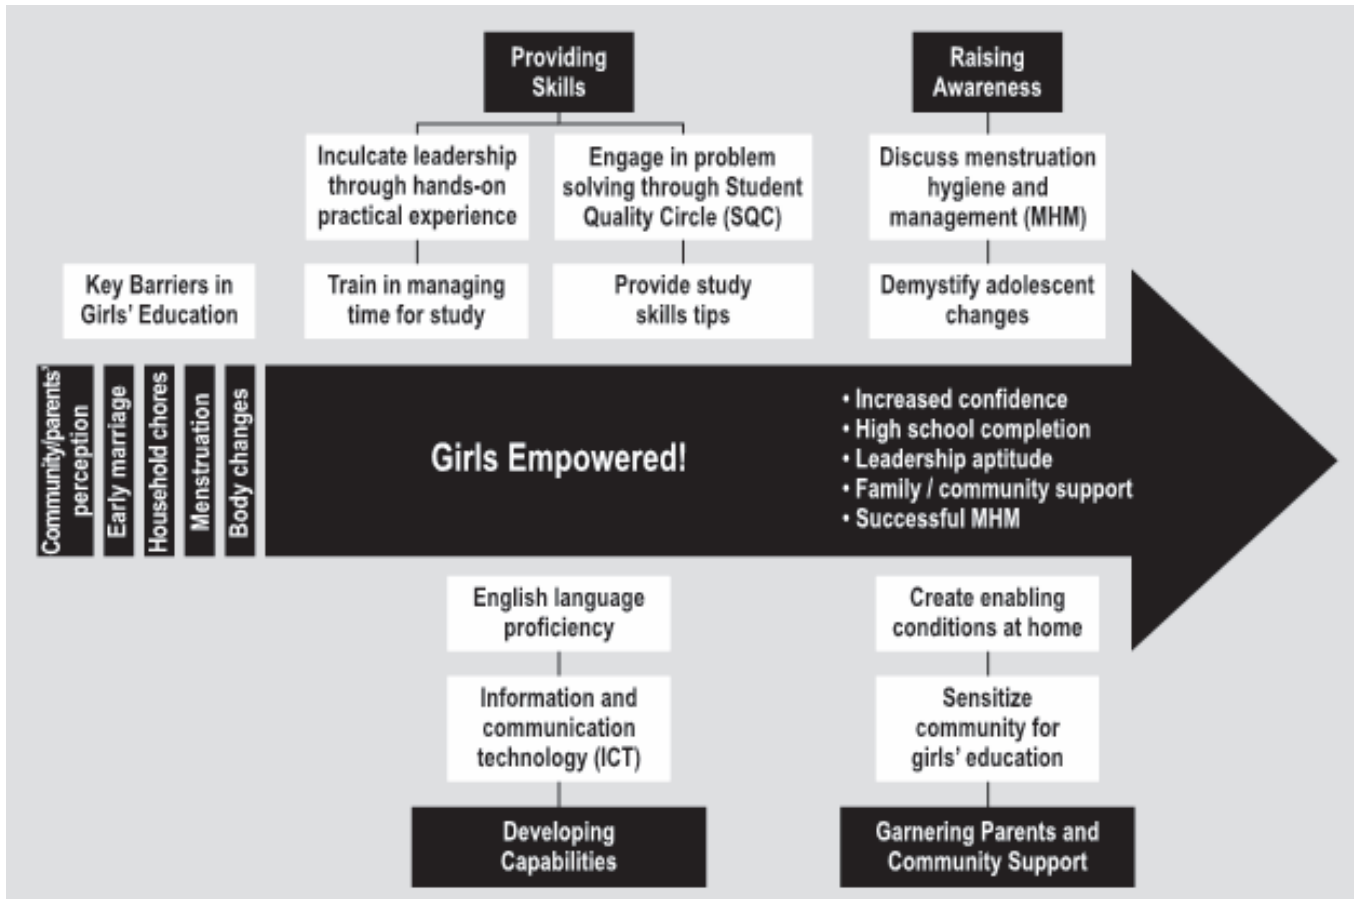

There are a number of barriers that impede women agency from their childhood. The stereotypical gender norms within the family and community discourage them to take up the leadership role in family decision making and community events. Girls, especially in rural areas, are not often allowed to make decision of their rights, educational preference and their future life. Still girls' education is a low priority among some parents. A large number of girls drop out when they reach high schools and there is a very

low high school completion rate of girls due to the lack of girls' friendly academic environment in their schools. Lack of sanitary facilities in school during menstruation, bullying, sexual harassment, increased household chores in the family, stress due to physiological changes during adolescent and lack of appropriate counselling to manage the adolescent changes are some of the factors that affect their educational performance in schools. Due to these circumstantial barriers, the girls since their high school, are not able to fully exercise their agency and they are forced to be dependent to their parents and other family members.

In the community level, the representation of women has greatly suffered from 'tokenism'. There are women in the local leadership but they are not often consulted in the key decision-making process. One of the examples I have observed during my school visits shows that there are women members in the School Management Committees (SMC) and they attend the regular meeting but they are hardly consulted while making key decisions. Thus, there is a representation of women in the committee but there is still an issue of meaningful participation in the meeting. This indicates that the agency of women has been seized and women find it difficult to exercise their agency while they represent in the different forums.

Strategies to Empower Agency

My experience has shown that agency is something that cannot be exercised abruptly. It has to be instilled since their childhood and it needs to be inculcated from the school level. Gautam (2016) proposes the following model to empower girls' agency from high school and highlights the collective roles of the parents, schools, local organizations and the state to realize this.

Theory of Change in Girls' Empowerment in Rural Context (Gautam, 2016)

This model presents the empowerment of girls' agency as a continuum and assumes four major areas - skills, awareness, capabilities and parental support – as the key components to be addressed from high school and continue it further. Among them, the first three components viz. skills, awareness and capability development should be initiated in schools and engage the parents and community as active allies. The fourth component i.e. garnering parents and community support could be initiated in the family and community should be engaged in its advocacy and implementation. The role of local leaders including the activists and women role models would be extremely important to sensitize the community towards girls' agency. I have used this model in a few remote districts of Nepal and this has been very useful to empower school girls not only to help them do better in their education but also take the leadership roles at the school and community level in a more meaningful manner.

Thus, based on my experience of working with the girls in the rural community, I would like to suggest the following activities to empower girls for future leadership.

- Make sure that high schools have appropriate sanitation facilities (WASH) for girls. This includes separate toilet for girls, running water in the toilet and availability of sanitary pads for emergency.
- Engage boys and male teachers in the discussion related to menstruation and body change and consider menstruation as a normal biological process. Also, discuss the health issues that might be caused due to menstruation and how they could be addressed.
- Gender-responsive pedagogy in classrooms so that girls' are equally engaged in class discussion, encouraged to ask questions and contribute to the discussion.
- Provide guided support in their education so that they can concentrate in their study and become successful in their exams.
- Engage girls in active leadership position that include child club, eco club and so on. Also provide them leadership training for them to take up various leadership roles such as Chair, Secretary and others.

- f) Give them less chores at home during high school and encourage them to concentrate in their study.
- g) Engage both girls boys in family decision making and listen to the voice of the girls equally so that girls feel that their agency has been recognized.
- h) Involve girls in the community events and encourage them to take up the leadership roles. Provide necessary support as needed while they exercise their leadership.
- i) Provide ICT tools to the girls in an equal manner and encourage them to make best use of them for their education and personality development.

Conclusion

Agency is something that cannot be developed overnight. It requires collective approach. The most important thing that we all need to realize is that girls' agency is something that needs to be developed from the family and it needs to be nurtured in school and community. Once we are able to do this, we will see more women in the leadership position and our vision of creating a just and fair society would be realized.

WEAR YOUR ROTARY PIN DAILY

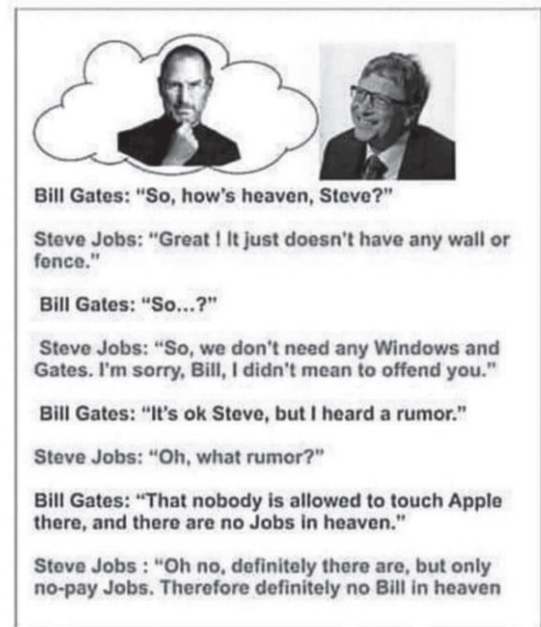

Wear your Rotary pin daily.
It's a way to show you care
Take pride of place on your shirt lapel
Ensure that it is always there.
People will notice it and talk to you
They'll ask you, "What does it mean?"
An opportunity for you to talk
And explain the Rotary dream.

It's a daily reminder of Rotary's values
And the work which Rotary does.
Of how Rotary has changed our precious world
And the Four way test is great to discuss.
It's a conversation starter, an Ice-breaker
A way to make new friends.
It will keep you focused on your public image
Whilst Rotary in your life extends.

An opportunity to bring new members to join
A creative way to catch their eye.
You can wear it on casual, comfy clothes,
Or your work attire, whatever you desire.
Be recognised throughout this great big world
Other Rotarians will notice you too.
By wearing your Rotary pin each day,
You'll be impressed with what it will do.

POEM BY DAVID TANARE

Very clever play of words.....

Bill Gates: "So, how's heaven, Steve?"

Steve Jobs: "Great ! It just doesn't have any wall or fence."

Bill Gates: "So...?"

Steve Jobs: "So, we don't need any Windows and Gates. I'm sorry, Bill, I didn't mean to offend you."

Bill Gates: "It's ok Steve, but I heard a rumor."

Steve Jobs: "Oh, what rumor?"

Bill Gates: "That nobody is allowed to touch Apple there, and there are no Jobs in heaven."

Steve Jobs : "Oh no, definitely there are, but only no-pay Jobs. Therefore definitely no Bill in heaven"

"The most truly generous persons are those who give silently without hope of praise or reward. "
